

COMITE UFCV LOIRE

MARCH 2025 - JULY 2025

VOLUNTEERING IN SAINT-CHRISTO-EN-JAREZ

ABOUT COMITÉ UFCV LOIRE

A LITTLE BIT ABOUT OUR ORGANIZATION

Since 2009, The « Comité départemental UFCV de la Loire » (CD42) fully works on international projects especially through EVS actions.

We organize workshops for children with our education staff in youth centres, based on non-formal education principles. Our main aim is to work with our publics on alterity, interculturality European citizenship and awareness.

ABOUT SAINT-CHRISTO- EN-JAREZ

A LITTLE BIT ABOUT THE ORGANIZATION YOU WILL WORK WITH

The organization of Saint-Christo-en-Jarez brings together services linked to childhood / youth actions in the town:

a leisure center (3-11 years) and a youth center (11-18 years).

The organization is also a local player in citizen initiatives which are grouped around several collectives or resource places:

- A fab lab space, a citizen and collaborative space (resource center, repair café)
- A community garden area around environmental issues
- A cultural organization, "La boîte à Meuh"

PROJECT DESCRIPTION

The activities to be carried out by volunteers are part of the Committee's alterity education project. More precisely, the volunteers will have an important role in the experimentation of intercultural meetings and the price of the conscience of the public. They will be asked to work, according to their skills, their personality and their ideas, on a project to raise awareness among European members, the European Solidarity Corps and, more generally, intercultural encounters.

Volunteers will be expected to integrate interventions in a leisure center, using tools that promote peaceful coexistence in a territory, to naturally question each person's cultural construction and open up to new possibilities. .

Pragmatically, this project is imagined as such:

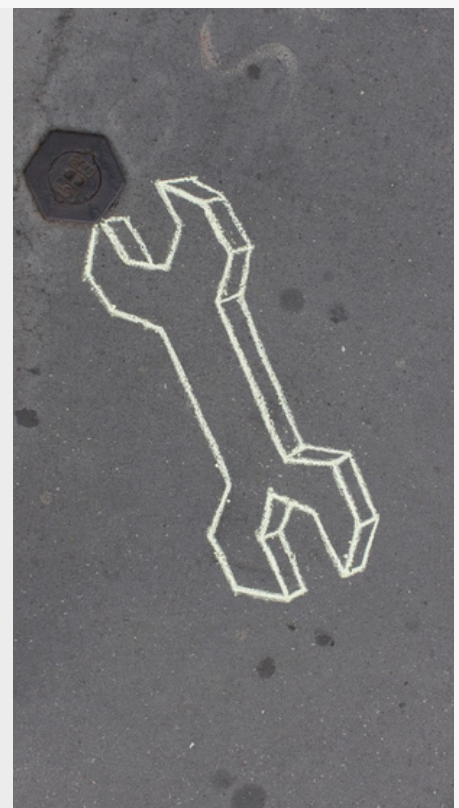

- Socio-cultural activities for leisure centers.
- Workshops on digital tools.
- Supporting structures on projects related to global challenges and living together.
- Proposal to work with the public (11-25 years old) around the issues of living together.
- Linguistic support, whether in their mother tongue or in English.
- Preparation of a musical cultural season.
- Information about the European Solidarity Corps and Europe for the network.
- Promotion of the European Solidarity Corps during forums organized on the territory.

OUR GOALS AND OBJECTIVES

The "Comité Ufcv Loire" hopes that welcoming volunteer will be the starting point for some, continuity for others, of many exchanges and questions. Hosting volunteers will encourage us to question the projects carried out by organizations through European projects, education to global citizenship and international solidarity.

These aspects are in keeping with the objectives of the European Solidarity Corps:

- Promoting solidarity through volunteering,
- Strengthening the engagement of youth and organizations in solidarity activities
- Contributing to strengthen cohesion, solidarity, democracy and citizenship in Europe,
- Promoting social inclusion.

VOLUNTEER PROFIL

Our project is designed so that volunteers can take ownership of it, adapt it to their own person, bring their ideas and fully develop in it. It is important to know that we want volunteers to stay for 12 months. As said earlier, the volunteers will take part in the projects of education to the otherness and «living together», within the Ufcv and its youth centers "Loire Sud". We would prefer to have young people who have already thought about these topics and are aware of their importance. The aim is to encourage the public and actors to be aware of societal issues and challenges,

by using tools that enable them to work together, through intercultural expression activities, Intergenerational meetings and cultural and creative activities. It is crucial that volunteers are interested in working with children and teenagers. Volunteers should feel comfortable with team-based projects (preparation, organization, communication and meetings...). It is not essential that volunteers speak French (Intensive French course planned), but it is preferable that they speak enough English to be understood.
